PO WHEELS CARE PVT LTD

ALKALINE IONIZER

MIRACLE BENEFITS

- Weight Loss
- Bone Health
- Energy/Endurance
- Hydration

- pH Balance
- Heart Health
- Detoxification

BOOK DEMO

ALKALINE BENEFITS

PO WHEELS CARE PVT LTD

Does it really work?

Reduced Acid Reflux

One 2012 study found that drinking alkaline water with a pH of 8.8 helped deactivated pepsin, the primary enzyme that causes acid reflux, or GERD.

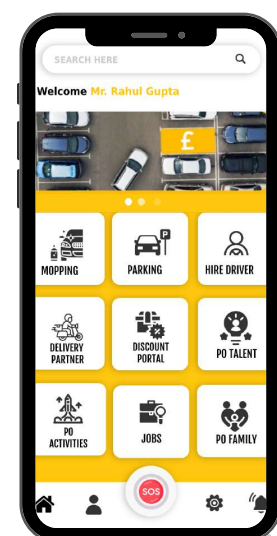

Improves Cardiovascular Health

Another study found that drinking alkaline water can reduce blood viscosity. Less blood viscosity means that it flows more efficiently. This increases oxygen delivery throughout the body — especially your arteries.

Slows Aging Process

Mineralized alkaline water contains powerful antioxidants that act as free radical neutralizers. Free radical damage causes cellular breakdown and could cause your body to age faster.

ALKALINE BENEFITS

PO WHEELS CARE PVT LTD

Provides Extra Hydration

Alkaline water contains minerals that give your body an extra boost of hydration. Trace minerals like calcium, magnesium, potassium, and sodium balance electrolytes and prevent dehydration.

Reduces Toxins in Your Body

Both regular tap water and some bottled water can contain harmful contaminants like lead and arsenic.

However, water filtered through a mineral alkaline and reverse osmosis system is clean and pure. So, you don't have to worry about ingesting toxic materials.

Improves Skin Appearance

An imbalanced pH in your body can show up on your skin. A healthy skin barrier has a pH of about 5.

With excess acid in your body, your skin's pH gets thrown out of whack. This shows up as skin irritation, redness, itching, dryness, and breakouts. However, drinking alkaline water helps balance your body's pH levels thus keeping your skin healthy and glowing.
